 - ii) From the 1999 second notice draft: 327 IAC 2-1.4-1 and 2-1.4-2.
 - iii) Additional discussion.
 - B) Colorado approach.
- 4) Discussion of policy issues (identified at the 12/19/02 meeting)
 - A) Who decides what is “necessary”? How large of an “area” participates in that decision?
 - B) What happens when a community is inadequately prepared to make a decision?
 - C) How do we develop a simple process that can be implemented by IDEM?
 - D) What are the exceptions to the rule?
- 5) Discussion of Public Participation goals of the workgroup

Note: lunch will be on your own.

Questions raised at the end of the 2/24/03 meeting for consideration today:

1. What portions of the 1999 second notice are OK to use in the current rulemaking effort?
2. What is the process needed to implement OSRWs? What portion of that process needs to be in the rule?
3. Why do we need to establish implementation procedures before an OSRW can be designated? (John Nixon has been asked to look into this question and report back.)
4. Does (n) on page 9 of SEA 431 mandates “net improvement” procedures?
5. Are new OSRWs and existing OSRWs treated differently?
